# Global success: The Liebherr Group.

Liebherr is a third-generation, family-owned company founded in 1949 by Hans Liebherr with his ground-breaking invention of the world’s first mobile tower crane.

With over 70 years of success, Liebherr is known as a pioneer in high-quality, breakthrough innovations and countless cutting-edge technologies in numerous industries. One of the world's largest manufacturers of construction machinery, Liebherr has expanded its broadly diversified portfolio to 13 product segments including earthmoving, deep foundation machines, mobile and crawler cranes, tower cranes, concrete technology, material handling technology, mining, maritime cranes, aerospace and transportation systems, gear technology and automation systems, components, hotel, and refrigeration and freezing. The company currently employs about 48,000 people in more than 140 companies in over 50 countries worldwide.

Refrigeration and freezing

Liebherr-Hausgeräte GmbH, Germany

## Liebherr-Hausgeräte – Specialists in refrigeration and freezing.

Liebherr-Hausgeräte covers the full range of refrigeration and freezing for domestic and commercial use. Headquartered in Germany, Liebherr-Hausgeräte has an impressive range of more than 3,000 products in its portfolio.

# Before we think about fridges, we think about you.

Fridges are supposed to cool. But what else should modern appliances be capable of today? How can they better meet customer needs? How can their design be more efficient, intuitive and modern?

We think about all these questions every day, because for us a fridge is not just an appliance. Instead, it should be a partner who supports us where it can ... who thinks in harmony with us, takes on tasks and makes work easier. In order to achieve this, we are constantly developing our appliances. Because the smarter and more helpful they are, the more time you have for all the other important things in life.

## Achieving the highest quality is our standard.

We have been manufacturing high-quality fridges and freezers and selling them around the world since 1954. Yet at heart we are still a family business and have our roots firmly based in Germany. We continue to develop our products here. German engineering – from an enduring connection with our founder and in the knowledge that engineering expertise has been pooled here for generations.

## Built to last.

You can experience our quality standards in the smallest of details. For example, before a door hinge is approved by us, it must pass through at least 100,000 opening cycles. This corresponds to a usage period of more than 15 years. We also test all other functional parts to ensure that they can last just as long. We have leveling bars to ensure that your fully integrated appliance works perfectly over this long period and stands firmly in place, even when the wood in the kitchen unit settles. They harmoniously compensate for any unevenness between the floor and the appliance, so that the fridge door always closes tightly. It may sound simple, but this is crucial for avoiding condensation and increased energy consumption.

And if, contrary to expectations, a small detail no longer meets your requirements, you or your expert service partner can usually correct it quickly, because all of our appliances are extremely easy to repair. We keep all essential spare parts in stock for well over 10 years. This saves you money for minor repairs or the purchase of a new appliance – and it is also sustainable.

## We don't just say it. We also guarantee it.

During production, we take a very close look at all of our fridge components and test them far more thoroughly and more often than required by law – right up until the packaging stage. Only then may our appliances take a little rest. All our production sites are certified according to international ISO 9001 standard for quality and ISO 14001 standard for environmental management. Therefore it is wholly natural for us to guarantee you that for at least two years our products will be free of material and manufacturing defects and are particularly easy to install.

One thing is certain in any case: Your Liebherr will be reliable companion for a very long time.

# Taste that stands the test of time: Freshness is a question of technology.

Storing groceries in ideal climatic conditions not only ensures extra-long freshness and storage time, it also makes a substantial contribution to avoiding food waste. With our appliances this is possible – thanks to the perfect combination of integrated freshness technologies.

**DuoCooling. No drying out.**

Our basic technology in all fridge-freezers is called DuoCooling. Thanks to two completely separate refrigeration circuits, it ensures that there is no exchange of air between the fridge and freezer compartments. The food neither dries out nor are odours transferred – so that only the Camembert smells and tastes like Camembert.

**EasyFresh. Ideal for fruit and vegetables.**

The freshness guarantee in your Liebherr fridge. Unpacked fruit and vegetables feel right at home here. At the same temperature as in the fridge compartment and air-tight, lettuce, for example, remains crisp and fresh even after 10 days.

**BioFresh. Our all-rounder.**

With our patented BioFresh technology, food is stored at a much cooler temperature than in the rest of the appliance. At temperatures just over 0 °C and with perfect humidity, BioFresh offers the ideal storage conditions. The air-tight Fruit & Vegetable safe is the ideal environment for fresh produce. Meat, fish and dairy products are in good hands in the Meat & Dairy safe.

**BioFresh Professional.  
Refrigerate like the professionals.**

A special innovation can be found in the BioFresh Professional and the brand new HydroBreeze feature. Every time the door is opened and after every 90 minutes, a fresh, cold mist is produced, covering fruits and vegetables like a balm to ensure crisp freshness and giving them a nice wow effect.

**Fresh. Sustainable. Healthy.**

The storage climate: We could write so much about it. To put it briefly, there are three main reasons that motivate us to keep perfecting it. First: An ideal climate contributes to keeping your food fresh for longer. You can enjoy it fresh for longer. Second: This prevents unnecessary food waste and means you have to go shopping less frequently. Three: Optimal storage helps to protect vitamins and nutrients. And this contributes to a healthy diet.

**HydroBreeze – the cold fresh mist.**

We found inspiration for the HydroBreeze in Salinas Valley in California. Due to the proximity to the cool Pacific Ocean, in the summer a fine humid mist covers the valley and the fields. This prevents the vegetables grown here from drying out.

# Fits exactly to your needs.

Fridges and freezers are used daily. They have long been an essential part of our lives. And they should be as simple to use and convenient for you as possible. That's why we develop fridges and freezers that impress with their ease of use and flexibility – from the first door opening to the smallest features – to perfectly adapt to your needs.

## As flexible as your life.

The features of our new appliances give you more freedom: The divisible glass shelf creates space for tall containers and carafes. Do you like things to be well organised? With the VarioBox and the VarioSafe you can store smaller objects neatly in the door or interior – always exactly at the height you like.

How about a cold drink? The glass shelf above the BioFresh safe transforms into a bottle shelf in the blink of an eye. The freezer compartment also ensures that you are well prepared with one of our new appliances: VarioSpace creates space for the largest turkey or the highest ice cream cake. Speaking of cake: For all those who love baking, our fridges and fridge-freezers offer enough space for a full baking tray.

## Full of food. And convenience.

To ensure that all your food is always perfectly accessible, our appliances have telescopic rails in the fridge and freezer compartments which enable the drawers to slide back and forth with ease. And even once you have found all the ingredients, there is still further convenience. Thanks to the SoftSystem. This means that our doors always close gently and quietly, even if the force applied is a little too strong.

# Timeless and elegant. Design for every kitchen.

Liebherr appliances are designed to inspire awe and integrate seamlessly into your kitchen. Multiple size configurations, installation options, and choice of stainless steel or personalized finishes allow for perfect integration into your dream kitchen.

**Design meets functionality.**

Puristic and timeless on the one hand. Elegant and exclusive on the other. The Liebherr design language blends design and functionality. The high quality glass and stainless steel components are impressive. The precise craftsmanship, an eye for detail, and the harmonious combination of materials, shapes and colours create an aesthetically pleasing end product.

Our LEDs provide a pleasant, bright light tone that makes your food look even more appetizing. As they have a very low heat generation, everything stays cool and fresh.

Just a fan? Not at all: the high glossy fan with ambient lighting ensures almost uniform temperature distribution and also includes the FreshAir activated charcoal filter. Functionality at its best.

# Perfectly balanced: a powerful, complete package.

A good fridge is a real all-rounder: In addition to low power consumption and low noise levels, it should also offer plenty of space for food and have power reserves for when they are needed. For this reason we don't pay attention to just one factor, instead we have all usage situations in mind at once. The result: our appliances offer a balanced, perfectly coordinated complete package of energy efficiency, volume, noise level and cooling performance. So all good things come in fours for us.

## Efficiency

Liebherr appliances occupy top positions in efficiency rankings. In this way, they protect the precious resources of our environment and, thanks to low electricity costs, your wallet too.

## Volume

We have the perfect appliance for all family sizes, lifestyles and niche heights. From extra-large drawers to the smallest details, we make sure that no liter of volume goes to waste. For example, through space-saving lighting solutions recessed into the housing.

## Noise level

Kitchen and living spaces are merging more and more in modern home design concepts. This underlines the importance of particularly quiet fridges. Our product range therefore offers a wide selection of extremely quiet appliances. Some even achieve the ultra-quiet level of 29 dB.

## Refrigeration

Intelligent sensor technology constantly adapts the cooling performance to the current use – our appliance are very energy-efficient and economical in everyday use. At the same time, they offer considerable power reserves. For example, to cool a larger amount of food after the weekly shop and they are especially good for spontaneous visits. Drinks can be brought to a pleasant drinking temperature extremely quickly at the touch of a button.

# Sustainability inside.

With a Liebherr, you are not only doing something good for your food, but also for the environment. Because we are constantly working on reducing the consumption and electricity costs of the appliances even further – while maintaining their excellent performance.

For example, we test all functional parts for a service life of 15 years. And just in case, we guarantee a long availability of spare parts. This means that you can enjoy a Liebherr for many years – and at the same time take care of your ecological footprint: because a long service life significantly reduces the consumption of energy and resources.

# Flexible accessories for your appliance.

Discover the versatility of the Liebherr range of accessories for your fridge – and make your daily life a little bit easier.

## Organisational systems

Set up your fridge how you want it: In addition to the VarioSafe and the VarioBoxes, we also offer optimal organisation with the variable egg tray and the FlexSystem. Thanks to our bottle shelves and the clip labelling system for your wine inventory, you can also keep track of your beverages.

## Useful help of all kinds

From the handy butter dish to the easy-fill ice cube tray, from the freezer tray to the Vario energy-saving panel, our range of accessories offers plenty of smart solutions for serving food and keeping it fresh.

## Perfect installation – perfect appearance

Connecting sets, stainless steel frames and fronts with matching handles or drawers for accessories: the product range features many accessories that can help integrate a built-in appliance in the kitchen in an individual and visually perfect fashion.

Subject to availability. Please check with your local dealer for accessories available in your region.

## Freestanding appliances

# Unique features.

## IceMaker

Are there any ice cubes left? An IceMaker means you never have to ask. With the IceMaker with fixed water connection, the water comes directly from the tap. The MaxIce function allows you to produce up to 1.5 kg of ice cubes a day. The ice cube separator helps to divide the drawer into any size you want – for example, ice cubes on the left, ice cream on the right – or just for ice cubes.

## SoftSystem

From breakfast to a midnight snack – a fridge needs to be open and closed on many occasions. And your Liebherr makes this a lot of fun. With the SoftSystem, your fridge door closes softly and safely, and in a way which is pleasantly quiet and light. Bottles stored in the inside door remain securely in place – nothing rattles or wobbles.

## BioFresh

BioFresh provides the perfect climate for long-lasting food storage. When stored at just over 0°C and at the ideal humidity level, fruit, vegetables, meat and fish all retain their nutritious vitamins for longer.

## SmartSteel

A specially treated stainless steel finish that significantly reduces the visibility of fingerprints, making it very easy to clean. Maintain this beautiful surface simply by wiping it with a soft, damp cloth.

## Touch-Display

The elegant MagicEye control system with the innovative, user-friendly Touch-electronic feature ensures that the temperature in the fridge compartment and freezer compartment is kept to the selected temperature. All the functions can be simply and conveniently operated at the touch of a finger.

## PowerCooling system

Do you want to be sure that the cold is distributed as evenly as possible in your refrigerator? If so, the PowerCooling system is what you need. The fan – as powerful as it is quiet – distributes the cold air efficiently throughout the entire refrigeration compartment.

## Masterpiece in Innovative Freshness Technology.

Timelessly elegant with a full stainless steel body, our award-winning BluPerformance SBSes 8486 Side-by-Side Fridge-Freezer with six different climate zones boasts an array of innovative solutions.

The dual-zone wine compartment allows you to store two different types of wine at their respective desired temperatures, ranging from +5 °C to +20 °C. The NoFrost freezer with automatic IceMaker provides professional freezing technology for long-term freshness while a spacious refrigerator provides an extended shelf life for fresh groceries.

The BioFresh-Plus compartment includes a versatile Fish & Seafood safe and offers an adjustable temperature range of 0 °C and -2 °C to provide even more storage flexibility for a wide array of meat and produce.

Technical data see page 88.

## The big, cool combination.

The SBSes 8484 Fridge-Freezer from the energy efficient BluPerformance series combines ample fridge storage with perfect cooling performance for long-lasting freshness.

This side-by-side appliance can be precisely controlled via its intuitive touch & swipe temperature display. With its Fish & Seafood safe and adjustable temperature range between 0°C and -2°C, the BioFresh-Plus compartment provides perfect freshness for all types of food. And thanks to the innovative NoFrost technology, this appliance never has to be defrosted.

Its stunning SmartSteel exterior in combination with high-quality materials and exquisite workmanship make this model the highlight of your kitchen.

## It doesn't get any fresher.

Fall in love with the BluPerformance SBSes 8673, Liebherr's range of energy-efficient fridge-freezers. Its stainless steel body and BioFresh technology strike the perfect balance between timeless beauty and keeping food fresh.

The right temperature and ideal humidity conditions are essential for the optimum storage of fruits, vegetables, dairy, and meat. BioFresh ensures that your groceries retain their delicious freshness and nutrients for much longer. Keep your seafood in the versatile Fish & Seafood safe to preserve the delicate flavours for an extended period of time!

As with all Liebherr's freestanding models, you can choose to flush this appliance with your kitchen cabinetry for a clean, seamless look.

## Fully integrated appliances

For a clear overview.  
Even before you  
open the fridge.

○ Pure    ◇ Plus    △ Peak

Which appliance is right for me?  
A customer question that is not always  
easy to answer. That's why we have made  
it even simpler for you choose what's  
right for you by dividing our product range  
into easy to understand series.

○ Pure series

The Pure series is our basic class.  
Simple, clear and perfectly equipped  
for all essential needs. The Pure series  
has been reduced to the essentials.  
But full to the brim with the highest  
level of Liebherr quality.

◇ Plus series

The Plus series builds on our Pure  
series and has many impressive  
additional details. Above all, plus  
means a plus in comfort. The  
appliances not only provide first-class  
refrigerating and freezing, they are  
also just that little bit smarter.  
They help make much of the handling  
a little easier.

△ Peak series

The Peak series sits at the top of our  
series. Here the best is combined with  
the best. There is no compromise.  
Innovative Liebherr technology meets  
high-end design and comfort solutions  
that are simply first in its class.  
Appliances in this series are for those  
who want everything.

## Unique features.

### PowerCooling

Do you want to be sure that the cold is distributed as evenly as possible in your refrigerator? If so, the PowerCooling system is what you need. The fan – as powerful as it is quiet – distributes the cold air efficiently throughout the entire refrigeration compartment.

### LightTower

Enjoy an optimally illuminated interior: the LightTower shows off the food in its best light and is positioned so that all of your filled fridge is illuminated at all times. The flush mounting of the LightTower in the side walls means there is also more space for your food.

### Touch & Swipe Display

Control of your Liebherr at your fingertips: thanks to the Touch & Swipe display, you can operate your refrigerator intuitively and with ease. Simply select functions such as SuperCool on the colour display by tapping and swiping. The temperature is controlled just as easily. And, what if you are not actively using the display? Well, it then shows you the actual temperature.

### Meat & Dairy safe

Do you want the tender veal fillet or fresh milk to stay fresh for as long as possible? The BioFresh safes will ensure this is the case. In the Meat & Dairy Safe, the temperature is close to 0 °C – ideal storage conditions for even the most delicate of foods. And best of all, everything is perfectly adjusted in the factory for immediate use – and for longer freshness.

### IceMaker

Are there any ice cubes left? An IceMaker means you never have to ask. With the IceMaker with fixed water connection, the water comes directly from the tap. The MaxIce function allows you to produce up to 1.5 kg of ice cubes a day. The ice cube separator helps to divide the drawer into any size you want – for example, ice cubes on the left, ice cream on the right – or just for ice cubes.

### SuperSilent

Shhh – listen carefully. Your Liebherr is so quiet that you have to strain your ears to hear it. How is this achieved? All refrigeration components such as compressors, valves, fans and evaporators are optimised and perfectly adapted to one another. This means you only hear what you want to hear in your kitchen.

## See food in a new light.

Our most premium range of new Fully Integrated appliances: Meet the ICNh 5173 and ICBNh 5173 from the Peak series.

One highlight exclusive to the ICBNh 5173 is the brand new HydroBreeze which produces a fresh, cold mist that coats fruits and vegetables to ensure their crisp freshness. Temperature in the BioFresh Professional Meat & Dairy safe can be close to 0°C, allowing you to retain the delicate taste of freshly bought seafood for longer periods.

The ICNh 5173 Fridge-Freezer with EasyFresh drawers offers plenty of space for your favourite food and ingredients.

Both models in this combination are equipped with a high-resolution Touch & Swipe display. Their exquisite interior craftsmanship of glass and stainless steel illuminated by our new LightTower makes every peek inside a visual experience.

# There's room for freshness everywhere.

The sophisticated ICNh 5103 fits seamlessly into your kitchen: Elegant, slim, full of innovative features.

In the EasyFresh safe, you can store fresh fruits and vegetables in the best possible way. With its airtight seal, no moisture can escape and groceries stays as fresh and appetising as at the market stand.

Thanks to DuoCooling technology, this built-in fridge-freezer has two completely separate cooling circuits. This prevents any air exchange between the refrigerator and freezer compartments, keeping your food from drying out and eliminating odour transfers. Want to keep your homemade pizza or cake fresh? The ICNh 5103 even has room for a whole baking tray!

## The best sides of your kitchen.

Seamlessly tucked away behind your cabinetry, the SIGN 3576 and SIKB 3550 side-by-side combination is your kitchen's best kept secret.

Enjoy ultimate freshness with SIKB 3550 Fridge! Liebherr's patented BioFresh technology keeps meat, fish, and dairy fresh in the DrySafe drawer while high humidity in the Fruit & Vegetable-Safe efficiently retains natural moisture in unpackaged fruits and vegetables. With our practical FlexSystem and flexible bottle racks, you can get things organised while maximising interior space.

The SIGN 3576 NoFrost Freezer comes with eight generous FrostSafe drawers on telescopic rails that can be easily removed for added flexibility. And thanks to the built-in IceMaker you will always be able to have cold drinks on hand for every occasion. SoftSystem facilitates the gentle closing of both appliance doors even when the fridge door shelves are fully-loaded.

## The smooth operator.

A unique pull-out model, the SUIKo 1550 Undercounter Fridge serves as a great option for kitchen islands.

Mounted on soft telescopic rails to enhance user-friendliness and convenience, it comes with a practical bottle shelf and removable fruit and vegetable drawer. The large drawer can also be divided into two equal-sized compartments, with further storage space underneath.

SuperCool function quickly reduces temperature which is perfect for rapidly cooling down freshly stored food. The innovative LED light and special satin finish of the light cover produces a pleasant lighting atmosphere.

Technical data see page 100.

# Convenience at your fingertips.

Our space-saving undercounter appliances are the practical choice for compact living spaces. The SUIK 1510 Undercounter Fridge is great for fresh produce with height-adjustable glass shelves to ensure maximise storage flexibility.

SUIK 1510 equipped with innovative SoftSystem technology which ensures that the appliance door closes gently and automatically from an opening angle of approximately 30°. No ventilation grill is needed in your worktop as airflow enters and exits from the front of this undercounter model.

## Wine cabinets

# Unique features.

## LED lighting

The LED lighting in the individual wine compartments can be dimmed to give a pleasing ambient light inside the appliance. All Vinidor appliances are equipped with this innovative, no-heat LED lighting concept. The LED lighting can also be adjusted to operate continuously or in conjunction with door openings.

## Insulated glass door

Liebherr wine cabinets come with insulated glass doors with special UV protection. The double-glazed construction means that most of the damaging UV radiation is reflected away. In addition, LED lighting guarantees perfect illumination of the wine cabinet interior without risk of UV exposure.

## FreshAir activated charcoal filter

Environmental odours can have a wine stored for longer periods. Fresh air is supplied to Liebherr wine cabinets through the easily replaceable FreshAir activated charcoal filter to ensure optimal air quality.

## Handcrafted beechwood shelves

Our natural, handcrafted, and untreated beechwood shelves release no chemical aromas into the environment that could adversely influence the flavour of wine. In addition, wooden shelves contribute to the reduction of vibrations which allows wine to develop in peace.

## Touch electronic control system

Our touch electronic control system is easy to navigate and enables tailored storage options. Temperature can be set between +5 °C and +20 °C based on your preference. In our multi-temperature models, each wine safe can be controlled independently, allowing different types of wine to be stored in one wine cabinet.

## Compressor

Specially developed compressors installed in the wine cabinets from Liebherr ensure that the wines are stored in a particularly low vibration environment.

## Created for true wine connoisseurs.

The WTes 5872 Multi-temperature Wine Cabinet satisfies your thirst for the smartest, most elegant ways to store wine. It adds sophisticated flair to entertainment areas while providing ideal conditions for wine to mature successfully. With three adjustable temperature zones, you can simultaneously store red wine, white wine, and champagne all at their optimum serving temperature between +5 °C and +20 °C.

An insulated glass door protects wines from damaging UV radiation while the presentation shelves allow the perfect display of your finest collection. Specially developed compressors provide a low vibration environment and telescopic rails help shelves to slide out gently without causing sudden movements that could damage your wine. An activated charcoal filter provides a permanent supply of odourless, fresh air.

Impress your guests with what is a true wine storage unit. Also available in two temperature zones as WTes 5972.

## Quality wines deserve quality storage.

The WKt 6451 Wine Cabinet offers similar conditions to an underground wine cellar. Its solid door means that chances of condensation are reduced, making it easier to maintain in a tropical climate.

The handcrafted, untreated beechwood shelves release no chemical aromas into the environment that could adversely influence the flavour of wine. In addition, wooden shelves contribute to the reduction of vibrations which allows wine to develop in peace.

With the capacity to hold up to 312 Bordeaux bottles (0.75 litres, this jumbo model is one of the largest wine cabinets in the market – the perfect choice for serious wine collectors with a huge range of wine bottles to mature.

Technical data see page 103.

## Classic and sleek, fits anywhere.

---

Take advantage of the design flexibility of Liebherr's fully integrated WKEes 553 Wine Cabinet – Place this sleek, modular model anywhere in your home and proudly display your best wine collection at eye level.

Temperature is adjustable from +5 °C to +20 °C and the LED ceiling light is dimmable to cast a cool glow across the room. The insulated glass door with UV protection and activated charcoal filter protects your wine from light and odour. This compact unit holds up to 18 Bordeaux bottles in an ideal storage environment.

Technical data see page 107.

## Liebherr Barrique

# Unique features.

## LED lighting

The tinted glass door provides not only a perfect UV protection, but also an optimum glance at wine. The integrated LED lighting ensures a pleasant illumination of the complete interior.

## Precision electronics

The precise electronic control system is equipped with a digital temperature display. The door and temperature alarm alerts of any irregularities, e.g. when the door is left open. The integrated lock on the front panel prevents unwanted access to the stored bottles.

## Handcrafted beechwood shelves

Our natural, handcrafted, and untreated beechwood shelves release no chemical aromas into the environment that could adversely influence the flavour of wine. In addition, wooden shelves contribute to the reduction of vibrations which allows wine to develop in peace.

## Presentation shelf

The presentation shelf, equipped with wooden angles, is ideal for presenting wine and storing open bottles safely. Up to 6 bottles can be set upright on the flexible shelf. In addition further bottles can be stored lying down either behind or at the side.

## Optimum humidity

Liebherr wine cabinets guarantee an optimum humidity and this ensured the corks are supple in place whilst still allowing the wine to breathe in its maturing process.

## Activated charcoal filter

The easy replaceable active charcoal filter purifies the incoming air to obtain an optimum odour-free interior.

## Perfect display for all your favourites.

With the capacity to hold 195 Bordeaux bottles, the spacious Liebherr Barrique WKb 4612 Wine Cabinet is ideal for the long-term storage and maturation of wines.

Constant temperature can be set as desired between +5 °C to +20 °C via the intuitive control system with digital temperature display.

Thanks to its coated glass door, wines will always be well-protected from UV radiation. Efficient LED lighting ensures that the interior is illuminated evenly and pleasantly, allowing you to proudly showcase your prized collection.

Also available in a shorter height as WKb 4112 with the capacity to store 168 Bordeaux bottles.

Technical data see page 108 - 109.

WKb 4612

# Wine storage sophistication for your home.

The WKb 4611 Wine Cabinet mimics the conditions of an underground wine cellar where its solid door creates a dark, undisturbed environment with zero exposure to UV light and heat fluctuations – perfect for maturing wines.

When humidity level falls below 50 %, natural corks begin to shrink, causing oxygen to enter the bottle and damage stored wines. With a humidity range between 50 % – 80%, Liebherr wine cabinets guarantee the ideal conditions to preserve the suppleness of wine corks which in turn prevents oxidation.

Your wines are always stored safely on our untreated beech wood shelves while an activated charcoal filter provides optimal air quality.

Technical data see page 108.

WKb 4611

## The storage choice for wine aficionados.

The Liebherr Barrique WKgb 4113 Wine Cabinet features an insulated full-glass, black door that provides protection from UV radiation and preserves the quality of wine.

Temperature can be adjusted between +5°C to +20°C and is ideal for the long-term storage of fine wines – be it for maturing or storage. Our integrated activated carbon filter absorbs odours from the ambient air and prevents the taste of fine wines from being impaired. With heating element in the double glazed glass door, it is perfect for tropical climate.

With its elegantly designed recessed handle, this wine cabinet looks perfect in any home or restaurant.

Technical data see page 109.

WKgb 4113

# Superb conditions for fine wines.

Our most compact model from the Liebherr Barrique series, the WKb 1712 Wine Cabinet can store up to 60 Bordeaux bottles. Wines are stored optimally on three untreated, height-adjustable beech wood shelves.

Wines are well protected from UV radiation thanks to a tinted insulated glass door while the activated charcoal filter provides optimum air quality and is easy to replace.

Energy-efficient LED lighting ensures even and pleasant illumination so that your favourite bottles are seen in the best light.

Technical data see page 110.

## Design and lifestyle

# Unique features.

LED lighting in humidor

Liebherr's ZKes 453 has LED lighting with dimmer function incorporated in the glass door. As the LEDs emit virtually no heat, the cigars can be exposed to the light for long periods of time without damage.

LED lighting in wine cabinet

For ideal presentation of your best wine, the WKes 653 features LED lighting with dimmer function and separate switch. As the LEDs emit minimal heat and no UV radiation, wine can be showcased bathed in light for lengthy periods without compromising its quality.

Fine cedar wood

Our ZKes 453 humidor features two presentation boxes and two wooden shelves crafted from Spanish cedar wood. The presentation boxes are perfect for storing loose cigars.

Wall mount option

Both the WKes 653 wine cabinet and ZKes 453 humidor can be wall-mounted as an attractive eye-catcher with convenient access for serving.

Ideal humidity

The integrated water tray can accommodate one liter of distilled water for ideal humidity. Sensors regulate precise humidity level selected. The display informs when water needs to be replenished.

Touch electronic control system

The perfect wine storage temperature is +8 °C to +12 °C. White wine should ideally be stored below +10 °C and red wine at up to +18 °C. Our electronic control system allows temperature to be set to the exact degree required between +5 °C to +20 °C.

## The perfect indulgence.

The ZKes 453 Humidor offers the perfect micro-climate for storing beloved cigars through fully-customisable humidity settings. Natural, handmade cigars are both delicate and sensitive, requiring a balanced mix of temperature and humidity to achieve the optimum flavour. The compartments in our humidor are crafted from Spanish cedar wood which allows its aroma to enhance the unique flavour of refined cigars.

For the perfect indulgence, pair the humidor with our WKes 653 Wine Cabinet. It has a compact footprint yet manages to hold up to 12 Bordeaux bottles. LED lighting and dimmer function ensures perfect illumination for your selection of coveted wines.

Coated with a beautiful SmartSteel surface, both units are easy to clean and maintain. Opt to wall-mount this stunning pair to give it the attention it deserves.

Technical data see page 111.

Product dimensions (H/W/D) cm	165 / 60 / 73.9
Net weight kg	79
Voltage V/Hz	220 – 240/50

Installation Diagram

UWTgb 1682  
Vinidor

Energy consumption (kWh/y)	146
Total capacity litre	123
Max. No. of Bordeaux bottles (0.75l) *	34
Total no. of storage shelves (incl. bottom compartment)	5
Shelf material	beech wood shelves
Electronic control	MagicEye with digital temp. display, key electronic
Temperature range °C	+5 °C to +20 °C
Temperature zones	2
Temperature alarm	visual and acoustic
Interior light	LED interior lighting
Door alarm	acoustic
Safety thermostat	yes
Activated Charcoal filter	yes
Door type	Insulated glazed door with TipOpen
Integrated lock	yes
Door hinges	right, reversible
Product dimensions (H/W/D) cm	82-87 / 60 / 58
Net weight kg	48
Voltage V/Hz	220 – 240/50

Installation Diagram

UWTes 1672  
Vinidor

Energy consumption (kWh/y)	190
Total capacity litre	94
Max. No. of Bordeaux bottles (0.75l) *	34
Total no. of storage shelves (incl. bottom compartment)	5
Shelves on telescopic rails	3
Shelf material	beech wood shelves
Electronic control	MagicEye with digital temp. display for both wine zones, key electronic
Temperature range °C	+5 °C to +20 °C
Temperature zones	2
Temperature alarm	visual and acoustic
Interior light	LED lighting permanently on, dimmable
Door alarm	acoustic
Safety thermostat	yes
Activated Charcoal filter	yes
Door type	glass door with stainless steel frame
Integrated lock	yes
Door hinges	right, reversible
Product dimensions (H/W/D) cm	81.8 / 59.7 / 57.7
Cut out dimensions (H/W/D) cm	82-87 / 60 / 58
Net weight kg	49
Voltage V/Hz	220 – 240/50

Installation Diagram

Liebherr Barrique Wine Cabinets

WKb 4612  
Liebherr Barrique

Energy consumption (kWh/y)	204
Total capacity litre	336
Max. No. of Bordeaux bottles (0.75l) *	195
Total no. of storage shelves (incl. bottom compartment)	7
Shelf material	beech wood shelves
Presentation shelf	1
Electronic control	MagicEye with digital temp. display, key electronic
Temperature range °C	+5 °C to +20 °C
Temperature zones	1
Temperature alarm	visual and acoustic
Interior light	LED interior lighting
Door alarm	acoustic
Safety thermostat	yes
Activated Charcoal filter	yes
Door type	Insulated glazed door, black frame
Integrated lock	yes
Door hinges	right, reversible
Product dimensions (H/W/D) cm	184.2 / 65.7 / 66.3
Net weight kg	86
Voltage V/Hz	220 – 240/50

Installation Diagram

\* These models are only bound for storing wine. Maximum DIN norm bordeaux bottles capacity (0.75 l) as per norm NF H 35-124 (H: 300.5 mm, Ø 76.1 mm).
