LIEBHERR

Door-on-door technology: Allows custom panels to be affixed directly onto the appliance door so that the hinges are concealed, plus the cabinet and the fridge open as one, ensuring a wide range of design options and easy installation.

IceMaker: Liebherr's automatic IceMaker produces flawless crescent ice and keeps constant supply on hand for every occasion. An activated charcoal filter ensures pure water for production of clear ice crescents.

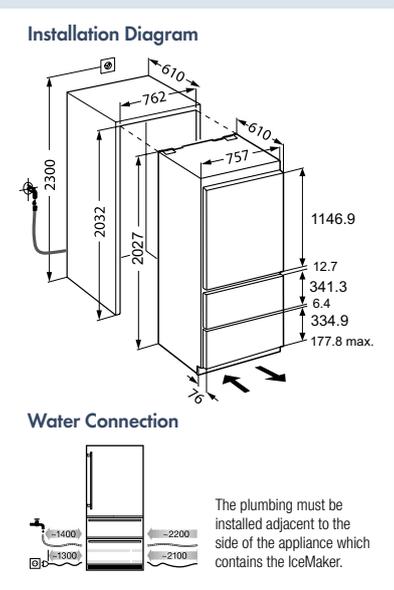

BioFresh: BioFresh guarantees the perfect temperature and ideal humidity for much longer freshness. While the DrySafe is perfect for meat, fish, and dairy products, the high humidity in the Fruit & Vegetable-Safe can prevent fruit and vegetables from drying out and helps preserve stored goods for an even longer period.

The **ECBN 5066** built-in masterpiece by Liebherr is the ultimate design highlight for any kitchen. Features a special satin-finish on the LED light cover to create an appealing and sophisticated lighting ambience. Available with door-on-door installation for customised integration. Opt for our stainless steel panels and handles and other accessories¹ for that extra touch of elegance!
