Classic & Sleek, Fits Anywhere

Quality, Design and Innovation
WKes 653

LIEBHERR

When it comes to savouring wine, the key is serving it at the ideal temperature. Storing wine at temperatures that are too high or too low impairs its flavour. The **WKes 653** wine cabinet has a compact footprint, measuring just 61cm by 42cm, yet it can store up to 12 Bordeaux bottles at perfect drinking temperature. Its elegant SmartSteel surface, coupled with LED lighting and a dimmer function, ensures that your finest collection is always presented in the best light.

With the option to wall-mount or position on any table top, the **WKes 653** provides a focal point in any environment. The most coveted wines in your collection will always be in sight and ready for your enjoyment.

Touch electronic control system: The perfect wine storage temperature is +8°C to +12°C. White wine should ideally be stored below +10°C and red wine at up to +18°C. Our electronic control system allows temperature to be set to the exact degree required between +5°C to +20°C.

LED lighting: For ideal presentation of your best wine, the WKes 653 features LED lighting with dimmer function and separate switch. As LED lights emit minimal heat and no UV radiation, wine can be showcased bathed in light for lengthy periods without compromising its quality.

Wall-mount option: The WKes 653 wine cabinet can be wall-mounted as an attractive eye-catcher with convenient access for serving!
