← 75 →

Energy consump. in 365 days/24 h	kWh ¹
Total net	Fridge: 303 l including BioFresh compartment: 103 l / Freezer compartment: 121 l
Frequency / voltage	60 Hz / 115 V~
Connection Rating	2.5 A 194 W
Door / Side walls	white / white
Exterior dimensions in cm (h / w / d)	202 / 75 / 63¹
Controls	
Type of Control	MagicEye in the door, touch electronic Digital temperature display for fridge and freezer compartments
Door alarm	akustisch
Alarm in case of malfunction	optisch und akustisch
Fridge compartment	
Forced air system	PowerCooling
Door interior	Premium GlassLine storage shelf with bottle holder, Egg tray
Bottle shelf	Variable bottle shelf
Interior light	LED light column on both sides LED BioFresh lighting
BioFresh-Safes	2 BioFresh-Safes with SoftTelescopic set variably to either HydroSafe or DrySafe
Freezer compartment	
Star coding	****
Interior light	LED lighting
Number of drawers	3 drawers, VarioSpace
Features	
Side-by-Side concept	Side-panel heating on both sides, suitable for combination with other fridges, freezers and/or wine appliances
Door hinges	Reversible door hinging
EAN-Nr.	9005382187913

¹ To achieve the indicated energy consumption level, the wall spacers provided with the appliance must be used. These increase the appliance depth by approximately 3.5 cm. If the wall spacers are not used, the appliance will remain fully functional, but will have a slightly higher energy consumption level.

Features

BioFresh-Plus

BioFresh-Plus with separate electronics provides even more flexibility for individual grocery storage: For example, the temperature in the top compartment can be lowered to -2 °C to store fish. In combination with the DrySafe setting, this keeps fish and seafood fresh for even longer.

NoFrost

Liebherr's NoFrost appliances provide expert refrigeration technology to ensure long-term freshness. The food is frozen with chilled recirculating air, and any humidity is expelled. As a result, the freezer is always free of ice, and food no longer frosts over. NoFrost convenience makes defrosting a thing of the past.

DuoCooling

DuoCooling uses two completely separate refrigeration circuits to ensure no air is exchanged between the fridge and freezer compartments. The food neither dries out nor is odour transferred. This means throwing less away, shopping less often, but saving more and greater enjoyment.

SoftSystem closing mechanism

The SoftSystem closing damping is comfortable and highly practical in everyday use. When the door is closed, the SoftSystem integrated in the door damps the movement and ensures particularly soft closing even when the door interior is fully loaded. On built-in devices the door closes automatically from an opening angle of around 30°.

Drawers mounted on telescopic rails

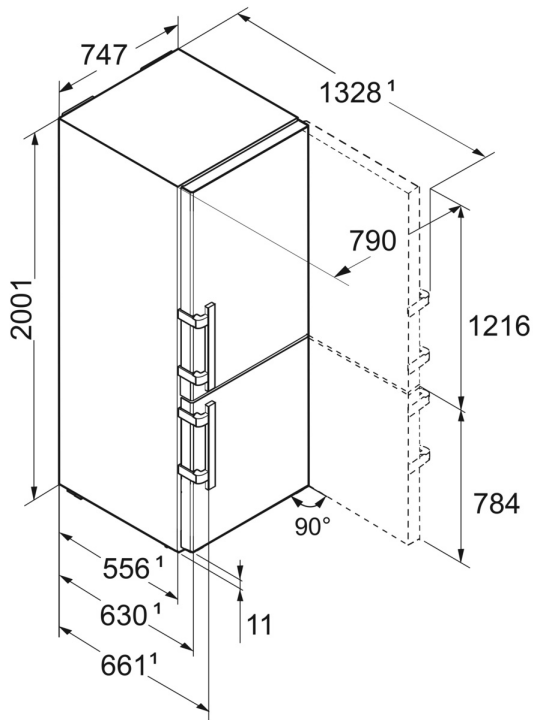

The drawers extend on smooth-running telescopic rails and can be conveniently removed at a door opening angle of 90°.

SoftTelescopic

All BioFresh safes and pull-out compartments fitted with SoftTelescopic feature a convenient self-retracting system with gentle SoftSystem, making everyday use practical and safe. They can be completely pulled out and removed even at a door opening angle of 90°.

Technical drawing

Products and their details are staged for advertising purposes. Whilst every effort is made to ensure all specifications and information in this flyer are accurate, Liebherr reserves the right to make changes without notification. Where actual appliance measurements, specifications, and ratings are crucial, we recommend that the actual appliance installation instructions that accompany each appliance be checked. Liebherr will not be liable for any damage. (01.03.2023)
