Features	
Temperature zones	3
Temperature range	+5 °C to +20 °C
Adjustable cooling circuits	3
Forced air system	Convection cooling, fresh air supply via FreshAir activated charcoal filter
Interior light	LED lighting permanently on, dimmable
Handle	Aluminium handle with integrated opening mechanism
Design	HardLine-Design
Shelf material	Beech wood fittings
Storage shelves	13
Pull-out shelves on telescopic rails	10
Door hinges	Reversible door hinging
Lock	fitted
EAN-Nr.	9005382151297

¹ These models are only bound for storing wine. Maximum DIN norm bordeaux bottles capacity (0.75 l) as per norm NF H 35-124 (H: 300.5 mm, Ø 76.1 mm)

Features

SoftSystem closing mechanism

The SoftSystem closing damping is comfortable and highly practical in everyday use. When the door is closed, the SoftSystem integrated in the door damps the movement and ensures particularly soft closing even when the door interior is fully loaded. On built-in devices the door closes automatically from an opening angle of around 30°.

Door alarm

The audible door alarm alerts the user if the door has been open for longer than 60 seconds for safe protection of the food.

Child lock

The child lock is programmed so as to prevent the appliance being inadvertently switched off. A symbol in the MagicEye indicates when the child lock is switched on.

Reversible door hinges

It is possible to change the door hinge on the appliance. The reversible door hinges permit optimum use of the appliance wherever it is located.

Vinidor range

With two or three wine safes that can be precisely regulated from +5 °C to +20 °C independently of one another, the Vinidor appliances offer maximum flexibility of use. The appliance featuring three wine safes can therefore simultaneously keep red wine, white wine and champagne at their optimum serving temperatures. These appliances also provide the ideal climate conditions for long-term wine storage. Since the wine safes vary in size, and their temperatures can be set with absolute flexibility, these appliances can accommodate any personal selection of wines.

Activated charcoal filter

Environmental odours can affect wines stored for longer periods. In the wine cabinets, perfect air quality is ensured through an easily-replaceable FreshAir activated charcoal filter.

Technical drawing

Products and their details are staged for advertising purposes. Whilst every effort is made to ensure all specifications and information in this flyer are accurate, Liebherr reserves the right to make changes without notification. Where actual appliance measurements, specifications, and ratings are crucial, we recommend that the actual appliance installation instructions that accompany each appliance be checked. (03.03.2023)
