LIEBHERR

TipOpen: When lightly tapped, TipOpen technology gently opens the glass door by 7cm to facilitate further opening. If accidentally brushed open, the door automatically closes after 3 seconds (if it has not been pulled open further).

Wooden shelf: The practical wooden pull-out shelves on telescopic rails enable smooth shelf sliding and are ideal for storing Bordeaux bottles. Store your wine bottles in opposite directions to make full use of the capacity.

Electronic LCD Display: Intuitive navigation of touch electronic control system enables tailored storage options. The digital temperature display can be viewed via the UV tinted glass door.

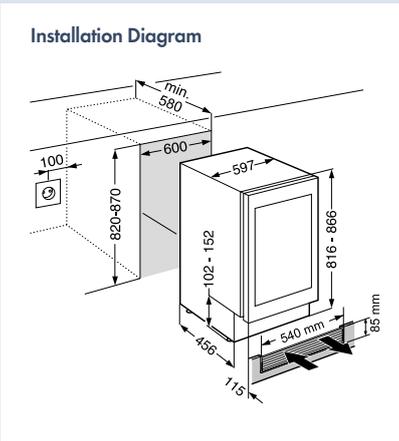

The dual-zone **UWTgb 1682** wine cabinet, with its unique black glass frame, is designed to be a highlight in your home. Our favourite feature is the innovative TipOpen mechanism that allows you the convenience of opening the appliance door with just one gentle tap! Our natural, handcrafted, untreated beechwood shelves release no chemical aromas and reduce vibrations so that your wine can develop in peace.

This elegant undercounter model will fit perfectly into your kitchen island or bar counter. With two independent temperature zones, you will be able to store different varieties of wines simultaneously, each at its optimum drinking or serving temperature. An activated charcoal filter¹ protects stored wines against odour; best changed once every 12 months.
