

The Perfect Environment for Your Wine

Quality, Design and Innovation

WKr 4211

LIEBHERR

Optimum humidity: Liebherr wine cabinets guarantee an optimum humidity and this ensured the corks are supple in place whilst still allowing the wine to breathe in its maturing process.

Wooden shelves: Liebherr's natural untreated beechwood shelves are ideal for storing Bordeaux bottles. Stored bottles in opposite directions to make full use of the capacity.

Solid door: A solid door wine cabinet mimics the conditions of an underground wine cellar, making it perfect for maturing wines by creating a dark, undisturbed environment with zero exposure to UV light and heat fluctuations.

The **WKr 4211** solid door wine cabinet mimics the conditions of an underground wine cellar perfect for maturing wines by creating a dark, undisturbed environment with zero exposure to UV light and heat fluctuations.

All Liebherr wine cabinets ensure a constant interior temperature that can be adjusted between +5°C and +20°C. Our handcrafted, untreated beechwood shelves release no chemical aromas and reduce vibrations so that your wine can develop in peace.

An activated charcoal filter¹ protects stored wines against odour and maintains air quality in the wine cabinet; best changed every 12 months.
