Energy consumption (kWh/yr) / Star rating	181 <sup>1</sup> / 5.5
Total volume	278 l <sup>2</sup>
Noise output	34 dB(A)
Climate rating	SN-T (+10 °C to +43 °C)
Frequency / voltage	50-60 Hz / 220-240 V~
Connection Rating	1.3 A 264.6 W
Door / Side walls	SmartSteel / silver
Exterior dimensions in cm (h / w / d)	185.5 / 59.7 / 67.5 <sup>1</sup>
Controls	
Type of Control	2.4" TFT Display /Touch und Swipe-display
	Digital temperature display
SmartDevice compatible	Optional extra SmartDeviceBox required
Door alarm	visual and acoustic
Alarm in case of malfunction	visual and acoustic
Freezer compartment	
Interior light	LED lighting
Number of drawers	7 drawers on integrated drawer guide, VarioSpace
	Top drawer with convenient tilting function
IceMaker	with fixed 3/4" water connection
Ice cube capacity in 24 hours	0.8 kg
Ice cube stock	8.0 kg
Freezing capacity in 24 hours	18 kg
Temperature rise time	16 h
VarioSpace	yes
Features	
Side-by-Side concept	Side wall heating right, suitable for combination with other
	refrigerators, freezers and/or wine appliances
Door hinges	Reversible door hinge, left
Replaceable door seal	yes
EAN-Nr.	4016803136576

<sup>1</sup> To achieve the indicated energy consumption level, the wall spacers provided with the appliance must be used. These increase the appliance depth by approximately 1.5 cm. If the wall spacers are not used, the appliance will remain fully functional, but will have a slightly higher energy consumption level. <sup>2</sup> In accordance with Regulation EU 2019/2016 we indicate the total volume to the nearest integer (rounded off) and the volume of the frozen compartments and refrigeration compartments to one place after the decimal point.

#### Freestanding SFNsdh 5267

## LIEBHERR

### Features

NoFrost

When you open your freezer, you want to see frozen food – and certainly not ice and frost. NoFrost protects the freezer compartment from unwanted icing, which consumes a lot of energy and can be expensive. NoFrost means no more tedious and time-consuming defrosting of the freezer compartment, more time for other things – and saving money.

SmartSteel

SmartSteel is a special coating which reduces the visibility of fingerprints and smudges, whilst also making the surface insensitive to scratches. The horizontal polish brings out the stainless steel and gives it a silky sheen and a pleasant feel.

Touch & Swipe display

Control of your Liebherr at your fingertips: thanks to the Touch & Swipe display, you can operate your refrigerator intuitively and with ease. Simply select functions such as SuperCool on the colour display by tapping and swiping. The temperature is controlled just as easily. And, what if you are not actively using the display? Well, it then shows you the actual temperature.

IceTower

You will never run out of cold drinks at your party. The IceTower, which holds 8 kg of ice cubes, makes sure of that. The ice cube scoop and the pull-out tray on telescopic rails allow easy access to the ice cubes. An extra insert tray means you can also store less ice and make room for frozen food underneath. The adjacent drawer provides storage space for frozen goods.

**SpaceBox** 

Accommodate the "big stuff" in your Liebherr: An XL turkey or a multi-layered ice cream cake simply needs more space. Your Liebherr has the SpaceBox for exactly that purpose: At a generous height of 250 mm, it offers lots of extra space, even for large frozen goods. Helpful for you when storing food flexibly.

SoftSystem

From breakfast to a midnight snack – a fridge needs to be open and closed on many occasions. And your Liebherr makes this is a lot of fun. With the SoftSystem, your fridge door closes softly and safely, and in a way which is pleasantly quiet and light. Bottles stored in the inside door remain securely in place – nothing rattles or wobbles.

<sup>1</sup> To achieve the indicated energy consumption level, the wall spacers provided with the appliance must be used. These increase the appliance depth by approximately 1.5 cm. If the wall spacers are not used, the appliance will remain fully functional, but will have a slightly higher energy consumption level. <sup>2</sup> In accordance with Regulation EU 2019/2016 we indicate the total volume to the nearest integer (rounded off) and the volume of the frozen compartments and refrigeration compartments to one place after the decimal point.

### Features

**BioFresh Fish & Seafood safe** 

Love fish? Your Liebherr keeps fish fresh! The Fish & Seafood Safe stores fish and seafood at the optimum temperature of -2 °C; as professionally as your fishmonger. Adjust the size of the -2 °C zone as much as you want – and store the remaining meat and dairy products at the optimum 0 °C. An LED display indicates that the -2 °C zone is currently active.

BioFresh Fruit & Vege safe

Crunchy salad and strawberries: the most delicate foods deserve a special place so they stay fresh longer – in BioFresh safes. In the Fruit & Vegetable safe the temperature is close to 0 °C. Combined here with the constant humidity, thanks to the air-tight closure, unpackaged fruit and vegetables feel particularly at home. You do not have to adjust anything.

**BioFresh Meat & Dairy safe** 

Do you want the tender veal fillet or fresh milk to stay fresh for as long as possible? The BioFresh safes will ensure this is the case. In the Meat & Dairy Safe, the temperature is close to 0 °C – ideal storage conditions for even the most delicate of foods. And best of all, everything is perfectly adjusted in the factory for immediate use – and for longer freshness.

SmartSteel

SmartSteel is a special coating which reduces the visibility of fingerprints and smudges, whilst also making the surface insensitive to scratches. The horizontal polish brings out the stainless steel and gives it a silky sheen and a pleasant feel.

LightTower

Enjoy an optimally illuminated interior: the LightTower shows off the food in its best light and is positioned so that all of your filled fridge is illuminated at all times. The flush mounting of the LightTower in the side walls means there is also more space for your food.

Touch & Swipe display

Control of your Liebherr at your fingertips: thanks to the Touch & Swipe display, you can operate your refrigerator intuitively and with ease. Simply select functions such as SuperCool on the colour display by tapping and swiping. The temperature is controlled just as easily. And, what if you are not actively using the display? Well, it then shows you the actual temperature.
