LIEBHERR

2.4" Touchscreen Display: Located behind the appliance door, this high-resolution and high-contrast 2.4" touchscreen display can be read from any angle. Stored menu options are intuitive and easy-to-operate.

BioFresh: When stored at Biofresh's precisely maintained temperature of 0°C and correct humidity level, nutrients in your food are retained. Our BioFresh drawers fully extend on telescopic rails and feature a self-closing mechanism.

PowerCooling: A high-performance system that allows freshly stored items to be chilled rapidly while maintaining an even temperature throughout the interior. In this energy-efficient BluPerformance range, the fan switches off when the appliance door is opened, saving valuable energy.

Note: Whilst every effort is made to ensure all specifications and information in this flyer are accurate, Liebherr reserves the right to make changes without notification. Where actual appliance measurements, specifications, and ratings are crucial, we recommend that the actual appliance installation instructions that accompany each appliance be checked. Liebherr will not be liable for any loss.

When looking for optimum fresh food storage, look no further than the **SKBbs 4350** BlackSteel fridge with BioFresh. From our BluPerformance range, this appliance combines perfect cooling performance for long-lasting freshness, ample storage space, and a classic design.

All its three BioFresh drawers run on telescopic rails and provide optimal storage conditions for your groceries at a temperature of just above 0°C in combination with ideal humidity. The SuperCool function allows food to be cooled quickly. And for storage of small condiments, pastes or medicines, VarioSafe makes it possible.

Default hinge	Right
Voltage (V) Rated Current (A)	220 - 240 1.2
Made in	Germany

Installation Diagram

1 To achieve the indicated energy consumption level, the wall spacers provided with the appliance must be used. This increases the appliance depth by approximately 1.5 cm. If the wall spacers are not used, the appliance will remain fully functional, but will have a slightly higher energy consumption level.

Important information: For Side-by-Side installation the freezer or the appliance with freezer compartment must be installed on the left as viewed from the front to prevent possible formation of condensation.
