LIEBHERR

2.4" Touchscreen Display: Located behind the appliance door, this high-resolution and high-contrast 2.4" touchscreen display can be read from any angle. Stored menu options are intuitive and easy-to-operate.

IceMaker: Liebherr's automatic IceMaker produces flawless crescent ice and keeps a constant supply on hand for every occasion.

VarioSpace: The freezer includes include drawers and glass shelves that can be conveniently removed to create extra storage space. It's Liebherr's very practical solution to quickly accommodate even bulky items.

Note: Whilst every effort is made to ensure all specifications and information in this flyer are accurate, Liebherr reserves the right to make changes without notification. Where actual appliance measurements, specifications, and ratings are crucial, we recommend that the actual appliance installation instructions that accompany each appliance be checked. Liebherr will not be liable for any loss.

Volume, efficiency, economy, ease of use, and outstanding design are the key features of the **SGNPes 4365** freezer from Liebherr's BluPerformance series. High-quality components and materials, and perfect workmanship combined with precise touch electronics system are what made this appliance so efficient.

VarioSpace allows you to remove the freezers drawers and use the glass shelves to store irregular shaped or large items. Meanwhile NoFrost technology ensures that this appliance never has to be defrosted. And thanks to its premium SmartSteel surface, this timeless elegant model is easy to clean and will definitely be a visual highlight in your home!

Made in	Germany

Installation Diagram

1 To achieve the indicated energy consumption level, the wall spacers provided with the appliance must be used. This increases the appliance depth by approximately 1.5 cm. If the wall spacers are not used, the appliance will remain fully functional, but will have a slightly higher energy consumption level.

Water Connection

a = 1100 mm
b = 700 mm
c = 110 mm
M = Solenoid valve

Plumbing must be installed adjacent to the side of the appliance which contains the IceMaker.
Water pressure must be between 0.15 MPa and 0.6 MPa (1.5 bar - 6 bar)

Important information: For Side-by-Side installation the freezer or the appliance with freezer compartment must be installed on the left as viewed from the front to prevent possible formation of condensation.
