

The Perfect Match for Your Kitchen

Quality, Design and Innovation

SICN 3314

LIEBHERR

Door-on-door technology: Allows custom panels to be affixed directly onto the appliance door so that the hinges are concealed, plus the cabinet and the fridge open as one, ensuring a wide range of design options and easy installation.

Control system: Our intuitive control panel ensures that all functions are easy and convenient to use while allowing the settings selected to remain accurate and constant.

BioCool: The humidity level inside the BioCool-Box can be regulated using a slider control so that the freshness of produce stored in the box can be preserved for longer.

The **SICN 3314** built-in fridge-freezer blends in beautifully with any kitchen cabinetry, providing diverse design options to create your dream kitchen. Liebherr's door-on-door technology allows for custom paneling to be affixed directly onto the appliance door, ensuring that your cabinet and refrigerator doors open as one, allowing for additional design options and easy installation. This model includes a BioCool drawer which regulates humidity via a slider control to help keep fruits and vegetables fresher for longer.
