

Duo Cooling

With two individually adjustable cooling circuits, **DuoCooling** prevents foods from dehydrating and the transmission of any odours.

No Frost

Safe long term food storage and no more defrosting: **NoFrost** keeps the freezer compartment ice-free and stored foods do not frost over.

Push Button Electronic

The precision **key electronics** with MagicEye-Display ensure easy and accurate temperature adjustment.

LED

The space-saving **LED ceiling lighting** is elegantly located and provides uniform illumination throughout the entire refrigerator interior.

Glass Line

The interior is fitted with high quality **safety glass storage shelves** that are easy to clean and have a high load-bearing capacity.

Ergonomic Opening

The integrated handles allow **ergonomic door opening** from almost any angle and are perfect for a handle free kitchen-look.

New Concept NoFrost Fridge Freezer range

Subject to modification. Printed in the UK, 12/2016.

Controls	MagicEye behind the door, key electronics ■ Digital temperature display for refrigerator and freezer compartments ■ Automatic SuperFrost, time controlled ■ Alarm in case of fault: visual and acoustic ■ Door alarm: visual and acoustic for refrigerator																							
Fridge compartment	PowerCooling ■ 2 or 3 white plastic door shelves, with egg tray ■ 3 or 4 GlassLine storage shelves ■ LED ceiling lighting ■ 1 large fruit/vegetable compartment																							
Freezer compartment ****	3 or 4 drawers, VarioSpace ■ Ice cube tray ■ Storage time in the event of fault: 20 hr ■ Freezing capacity in 24 hr: 4 kg																							
Key features	HardLine-Design ■ Vertical grip handles ■ Front ventilation to allow versatile installation ■ Rear transport handles ■ Height adjustable feet at front ■ Reversible door hinging ■ Replaceable door seal																							
Optional accessories	Bottle shelf (order no. 9881 026)																							

The **bottle shelf** provides elegant and practical storage for drinks. Available as an optional accessory.

¹ In order to achieve the stated energy consumption level, the appliance must be used with the spacers supplied, which increase the appliance depth by about 3.5 cm. If the supplied spacers are not used, the appliance remains completely functional but will have a slightly higher energy consumption level.
