

Freezers

for low ambient temperatures

LIEBHERR

Quality, Design and Innovation

New from Liebherr –
Freezers that will
operate in low
ambient temperatures.

**Frost
Protect**

Suitable for ambient temperatures
as low as -15°C

Chest, upright and under counter freezers

These freezers have been designed to deliver optimum performance even if ambient temperatures fall to as low as -15°C .

If the ambient temperature drops below $+10^{\circ}\text{C}$, these freezers continue to work efficiently and frozen products remain safely stored.

This means that these freezers can be installed in unheated rooms, on a balcony or in a garage.

Chest freezers

Designed to operate in ambient temperatures as low as -15°C .
