Sustainability Award: EcoVadis Medal for Liebherr-Hausgeräte Lienz

For the second time Liebherr-Hausgeräte Lienz GmbH has been awarded the silver medal from EcoVadis, thereby firming up its position as a sustainable brand. With this award, EcoVadis is recognising the commitment of Liebherr in the fields of the environment, ethics, labour and human rights as well as sustainable procurement.

Lienz (Austria), 21 June 2021 – sustainable enterprise and ethical trading has always been a top priority for Liebherr. Now EcoVadis – the worldwide leading provider of sustainability ratings – has put this to the test again. The result: Liebherr-Hausgeräte Lienz GmbH has been awarded the EcoVadis silver certificate for the second time. The company improved on its overall result from last year in this new assessment. This places the cooling appliance manufacturer – in particular with its portfolio of professional refrigeration and freezing appliances – in the top six percent with regard to sustainability and in the top five percent in the field of the environment. The EcoVadis award is particularly important for customers from the commercial sector.

“Only companies that take a consistent approach to assuming responsibility for society and the environment can enjoy lasting success – and that’s a good thing,” explains Steffen Nagel, Director of Sales & Marketing of Liebherr-Hausgeräte GmbH. He is delighted that EcoVadis have again chosen to present the company with this award because it is a deserved accolade for the performance of the team. “This award recognises the joint effort of people

from the most different Liebherr divisions who are constantly working to make our brand even more sustainable.”

EcoVadis is an internationally recognised Corporate Social Responsibility (CSR) self-assessment provider and offers a solution for monitoring sustainability in global supply chains. The EcoVadis method is based on international sustainability standards (GRI, UN Global Compact, ISO 26000) and is monitored by a scientific committee of CSR and supply chain experts to create reliable CSR ratings.

About Liebherr-Hausgeräte GmbH

Liebherr-Hausgeräte GmbH is one of eleven divisional controlling companies of the Liebherr Group. The Domestic Appliances division employs more than 6,200 staff and develops and produces a wide range of high-quality fridges and freezers for the household and commercial sectors at its headquarters in Ochsenhausen (Germany) and in Lienz (Austria), Radinovo (Bulgaria), Kluang (Malaysia) and Aurangabad (India).

About the Liebherr Group

The corporate group comprises over 130 companies on all continents and employs more than 46,000 staff. Liebherr generated consolidated total sales of over € 10.5 billion in 2018. The company group is a global, family-owned technology company, which is not only one of the biggest manufacturers of construction equipment in the world, but also recognised in many other sectors as a provider of technologically-advanced, user-oriented products and services. Liebherr was founded in 1949 in the southern German town of Kirchdorf an der Iller.
